

ROBO RACE

Wired / manual-control robot obstacle race

Team Size	2-4 members	Entry Fee	Rs. 200
Prize	To be announced	Venue	To be announced

Objective

Teams design and operate a wired or manually controlled robot to complete an obstacle track in the shortest time, without touching or damaging the track boundaries.

Robot Specifications

- Maximum robot dimensions: 30 cm x 30 cm x 30 cm (L x W x H) at the start line.
- Maximum weight: 5 kg, including the control wire/handle if wired.
- Only manual (wired) or RF-remote control is allowed; fully autonomous robots are not permitted in this event.
- Power source must be on-board (battery driven); mains-powered robots are not allowed on the track.

Track & Gameplay

- The track will include ramps, speed breakers, turns, and other obstacles, revealed on the day of the event.
- Each team gets one practice run (time permitting) and one timed competitive run.
- Touching track boundary walls may incur a time penalty; toppling over may end the run.
- The fastest completion time, subject to fewest penalties, wins.

General Conduct

- Participants must carry a valid college ID card at all times during the event.
- Any form of misconduct, use of abusive language, or unsporting behaviour will lead to immediate disqualification.
- Decisions of the judges and organizing committee are final and binding.
- The organizers are not responsible for any damage, loss, or injury during the event; participants take part at their own risk.
- Participants must report to the venue at least 30 minutes before their scheduled slot.

Safety Guidelines

- Sharp tools, open flames, lasers, and hazardous chemicals are strictly prohibited unless pre-approved by the organizers.
- All electrical connections must be properly insulated; loose wiring may lead to disqualification on safety grounds.
- Batteries must be handled with care; short-circuits or overheating incidents must be reported immediately.
- Safety gear (gloves/goggles, where applicable) is recommended and may be mandatory for certain sub-tasks.

Disqualification Criteria

- Missing the reporting or check-in deadline for your slot.
- Using a robot/device or submission that does not meet the size, weight, or component specifications above.
- Remote interference with another team's device or run.
- Plagiarism or use of an undisclosed pre-built solution where original work was required.
- Any attempt to bribe, threaten, or unduly influence judges or coordinators.

These rules are provisional and general in nature. The organizing committee may issue clarifications, additional rounds, or minor changes closer to the event date; the latest version will always be posted on the PLASMA 2K26 website.
