

SUMO WAR

Robot sumo - push your opponent out of the ring

Team Size	1-3 members	Entry Fee	Rs. 200
Prize	To be announced	Venue	To be announced

Objective

Two robots face off inside a circular ring (dohyo); the goal is to push the opposing robot out of the ring or immobilize it within the time limit.

Robot Specifications

- Maximum robot dimensions: 20 cm x 20 cm at the start (height unrestricted unless stated otherwise on the event day).
- Maximum weight: 3 kg (lightweight class) - a heavyweight class may be announced separately.
- Both autonomous and remote-controlled robots are allowed unless a specific sub-category restricts this.
- Robots must not use fire, projectiles, adhesives, or any mechanism intended to damage the opposing robot or the ring.

Match Format

- Matches are typically best-of-three rounds, each lasting up to 3 minutes.
- A round is won when any part of the opposing robot touches the floor outside the ring, or it is unable to move for a specified time.
- If neither robot is pushed out within the time limit, the round is decided by the judges based on aggression and ring control.
- A knockout bracket will be used for the overall event.

General Conduct

- Participants must carry a valid college ID card at all times during the event.
- Any form of misconduct, use of abusive language, or unsporting behaviour will lead to immediate disqualification.
- Decisions of the judges and organizing committee are final and binding.
- The organizers are not responsible for any damage, loss, or injury during the event; participants take part at their own risk.
- Participants must report to the venue at least 30 minutes before their scheduled slot.

Safety Guidelines

- Sharp tools, open flames, lasers, and hazardous chemicals are strictly prohibited unless pre-approved by the organizers.
- All electrical connections must be properly insulated; loose wiring may lead to disqualification on safety grounds.

- Batteries must be handled with care; short-circuits or overheating incidents must be reported immediately.
- Safety gear (gloves/goggles, where applicable) is recommended and may be mandatory for certain sub-tasks.

Disqualification Criteria

- Missing the reporting or check-in deadline for your slot.
- Using a robot/device or submission that does not meet the size, weight, or component specifications above.
- Remote interference with another team's device or run.
- Plagiarism or use of an undisclosed pre-built solution where original work was required.
- Any attempt to bribe, threaten, or unduly influence judges or coordinators.

These rules are provisional and general in nature. The organizing committee may issue clarifications, additional rounds, or minor changes closer to the event date; the latest version will always be posted on the PLASMA 2K26 website.
